**Notes to the Abbreviated Accounts for the period ended 31 March 2015****1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board.

**Turnover policy**

Turnover consists of the sales value (excluding VAT) of all work done in the period under contracts to supply goods and services to third parties. It includes the relevant proportion of contract values where work is partially performed in the year.

**Tangible assets depreciation policy**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment - 25% reducing balance

**Other accounting policies**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
