NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

(b) Fixed Assets

The cost of fixed assets is written off over their expected useful lives on the reducing balance method at the following rates:-

Computer equipment	33⅓% per annum
--------------------	----------------

(c) Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse based on tax rates and the law enacted or substantively enacted at the balance sheet date.

(d) Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, excluding value added tax
