CFANCY (UK) LIMITED

Notes to the Abbreviated Accounts for the Period Ended 31st May 2013

1. Accounting policies

Basis of measurement and preparation of accounts

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover policy

The turnover shown in the profit and loss account represents revenue realised by the company in respect of goods supplied during the period, exclusive of Value Added Tax and trade discounts.

Tangible fixed assets depreciation policy

Depreciation is provided, after taking account of any grants receivable, at the following annual rates in order to write off each asset over its estimated useful life. Freehold buildings -2% on cost or revalued amounts, Plants and Machinery -15% on cost, Fixtures and fittings - 10% on cost, Motor vehicles - 25% on cost.

Intangible fixed assets amortisation policy

Intangible fixed assets (including purchased goodwill and patents) are amortised at rates calculated to write off the assets on a straight basis over their estimated useful economic lives, not to exceed twenty years. Impairment of intangible assets is only reviewed where circumstances indicate that the carrying value of an asset may not be fully recoverable.

Valuation information and policy

Stocks are valued at the lower of cost and net realisable value; after making due allowance for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Other accounting policies

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter. The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.
