**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE PERIOD 12 MARCH 2014 TO 31 MARCH 2015**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax. The company's policy is to recognise a sale when substantively all the risks and rewards in connection with the goods and services have been passed to the buyer.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Improvements to property	- Over lease term of property
Fixtures and fittings	- 20% on cost
Computer equipment	- 25% on reducing balance

Deferred tax

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is not recognised on revaluation gains. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Operating lease commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
