Notes forming part of the financial statements

1. Accounting Policies

The financial statements have been prepared under the historical cost convention.

The following principal accounting policies have been applied:

Turnover

Turnover represents sales to external customers at invoiced amounts less value added tax or local taxes on sales.

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all tangible fixed assets, evenly over their expected useful lives. It is calculated at the following rates:

Office Equipment - 33 1/3% straight line

Deferred Taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.

Pension Costs

Contributions to the company's defined contribution pension scheme are charged to the profit and loss account in the year in which they become payable.
