1 ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention.

Depreciation

Depreciation is calculated to write off fixed assets over their estimated useful lives as follows:

| Freehold property | 2.5% | Reducing balance |
|---------------------|------------|------------------|
| Motor vehicles | 25% | Reducing balance |
| Plant & equipment | 20% | Reducing balance |
| Fixtures & fittings | 20%, 33.3% | Reducing balance |

Leases and hire purchase contracts

Assets held under hire purchase contracts are capitalised in the balance sheet and are depreciated in accordance with the company's depreciation policy. The interest element of the rental obligation is charged to the profit and loss account over the period of the hire purchase contract and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to the profit and loss account as incurred.

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost includes direct materials, labour and manufacturing overheads incurred in bringing each product to its present location and conditions. Net realisable value is based on estimated selling price less further costs to completion and selling costs.

Deferred taxation

Provision is made for deferred taxation using the liability method to the extent that it is considered likely that a liability will crystallise in the foreseeable future.

Foreign currencies

Profit and loss account transactions in foreign currencies are translated into sterling at the exchange rate in operation on the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into sterling at the closing rates and the exchange differences are included in the profit and loss account.

Pensions

The company operates a defined contribution pension scheme. Contributions payable for the year are charged in the profit and loss account.
