For the year ending 31 July 2015 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Approved by the Board on 04/11/15 and signed on its behalf by:

K Mistry
Director

PERIN (UK) LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 JULY 2015

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover

Turnover represents amounts receivable for rents accrued during the period.

Depreciation

Tangible fixed assets include investment properties valued by the director at what he considers to be the open market value at the balance sheet date.

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), no depreciation has been provided on the investment properties. In the opinion of the director the market value of the property at the period end is not less than acquisition cost.

Asset class

Plant and machinery
Investment properties

Depreciation method and rate

15% reducing balance
No depreciation

Investment properties

Certain of the company's properties are held for long-term investment. Investment properties are accounted for in accordance with the FRSE, as follows:

No depreciation is provided in respect of investment properties and they are revalued annually. The surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit below original cost, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This treatment as regards the company's investment properties may be a departure from the requirements of the Companies Act concerning the depreciation of fixed assets. However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Pensions

The company contributes to the directors' personal pension plan. The pension costs charged in the financial statements represent the contributions payable by the company during the year.

The director estimates that if the properties had been sold at the year end valuation there would have been a tax liability of £nil (2013: £nil).
