STATEMENT OF DIRECTORS RESPONSIBILITIES

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements the directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The report of the directors has been prepared in accordance with the special provisions within Part 15 of the Companies Act 2006.

This report was approved by the board on 01/04/2019

**NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 31/03/2019**

1. ACCOUNTING POLICIES**1a. Basis Of Accounting**

The accounts have been prepared under the historical cost convention.

The accounts have been prepared in accordance with FRS102 section 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

1b. Taxation

Taxation represents the sum of tax currently payable and deferred tax. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised on all timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

1c. Pension Costs

The company operates a defined contribution pension scheme. The pension charge represents the amounts payable by the company to the fund in respect of the year.

1d. Turnover

Turnover represents the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.
