NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31st MARCH 2011

1. ACCOUNTING POLICIES**Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The financial statements have been prepared on the going concern basis. The director considers that this basis is appropriate following due consideration of the present financial position, the expected prospects of the company during the twelve months from the date of approval of these financial statements and the continued support of the company's director and bankers during this time.

The company is technically insolvent and is reliant upon the continued support of the director.

Turnover

Turnover represents rents receivable

Investment properties

The investment property has been included in the accounts at cost

It is not the company's policy to depreciate investment properties. The company's practice is to maintain investment properties in a continual state of sound repair, accordingly their lives are so long and their residual value so high that their depreciation is insignificant.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
