Notes to the Abbreviated Accounts
for the Year Ended 31 March 2014

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The accounts have been prepared on the going concern basis. In assessing whether the going concern assumption is appropriate, the directors have taken into account all relevant information about the future trading including profit and cash forecasts. The business has a history of profits and is cash generative and this is expected to continue. It is therefore considered appropriate to adopt the going concern basis of accounting in the preparation of the financial statements.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value of services provided on the contracts to the extent that there is a right of consideration and is recorded at the value of the consideration. Where a contract has been partially completed at the balance sheet date, turnover represents the value of the services provided to date based on a proportion of the total expected consideration and completion. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors due in one year.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Computer equipment - 33% on reducing balance
