Notes to the abbreviated accounts for the year ended 31 December 2015

1. Accounting policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2 Going concern

The company meets its financing requirements through loans from its shareholders.

The nature of the company's business is such that income will not be generated until the solar park is operational. Until this time the shareholders will continue to ensure that the company has access to sufficient resources to meet its cash flow requirements.

After making appropriate enquiries, the directors have a reasonable expectation that the company will have adequate resources to continue in operational existence for the foreseeable future and accordingly they adopt the going concern basis in preparing the company's accounts.

1.3 Intangible assets and amortisation

Intangible assets is comprised of work relating to the planning and development of the solar park. Once the solar park is operational the assets are transferred into plant and machinery.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives. Depreciation is not charged on assets under construction.

1.5 Provisions

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event and it is probable that the company will be required to settle the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are discounted when the time value of money is considered material.

Where the company, a lessee, is contractually required to restore leased property to an agreed condition prior to the release by a lessor, provision is made for such costs as they are identified.
