- 2.2 The Company signed a Management Agreement with The National Exhibition Centre Limited (NEC), for the NEC to manage the new exhibition halls.

The NEC makes payments to the Company on 31 March and 30 September in each year, determined by reference to a share of the income achieved less costs incurred in the operation of the National Exhibition Centre as a whole, in accordance with the Management Agreement.

The Management Agreement which was signed on 14 May 1997, will remain in force for as long as the Company is a tenant of the land leased from the Birmingham City Council.

Company law requires the Directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the Company as at the end of the financial period and of the profit or loss for that period. In preparing these financial statements, the Directors confirm that they have:

selected suitable accounting policies and then applied them consistently;

made judgements and estimates that are reasonable and prudent;

stated whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and

prepared the financial statements on the going concern basis.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 1985. The Directors responsibilities for preparing the Annual Report and the financial statements in accordance with applicable United Kingdom law and accounting standards are set out in the statement of directors responsibilities.

Our responsibility is to audit the financial statements in accordance with the relevant legal and regulatory requirements, United Kingdom Auditing Standards issued by the Auditing Practices Board and the Listing Rules of the Financial Services Authority.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' report is not consistent with the financial statements, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions is not disclosed.

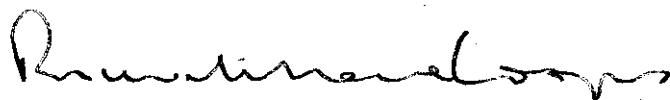

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements

NOTES TO THE FINANCIAL STATEMENTS

1. Principal Accounting Policies

The financial statements have been prepared in accordance with applicable Accounting Standards in the United Kingdom. A summary of the accounting policies is set out below. The Company has adopted Financial Reporting Standard ("FRS") No 18 – "Accounting Policies" in the year. This has not resulted in any changes to accounting policies.

Basis of accounting

The financial statements are prepared under the historical cost convention.

Turnover

Turnover represents the invoice value, excluding Value Added Tax.

Tangible assets

The cost of fixed assets comprises their purchase cost together with any incidental expenses of acquisition. The cost of the land lease premium has been capitalised as land. Buildings include all relevant expenditure incurred including fixed plant.

Issue costs incurred in raising finance relating to the construction of a fixed asset were capitalised as part of the cost of the fixed asset. Net interest payable, including amortisation of guarantee fees, on such finance up to the completion of the construction period was capitalised as part of the cost of the fixed asset.

Depreciation is calculated to write off the cost less estimated residual value of fixed assets. The residual value of the land, buildings and plant and equipment is at least equal to the capitalised cost of the new halls of £68,635k, resulting in a depreciation charge of nil.

Financial Instruments

The Company's financial instruments comprise borrowings, some cash and liquid resources, and various items such as trade debtors and trade creditors that arise directly from its operations. The main purpose of these financial instruments is to finance the Company's operations.

It is Company policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Company's financial instruments are interest rate risk and liquidity risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below. The policies have remained unchanged since 1 April 2001.

Interest rate risk

The Company finances its operations through a mixture of loan stock and debenture stock. All of the Company's borrowings are in sterling and therefore this eliminates any foreign currency risk. The Company may borrow at both fixed and floating rates of interest. The Company's policy is to keep a significant proportion of its borrowings at fixed rates of interest.

Liquidity risk

Company policy is to ensure continuity of available funding by ensuring that a significant proportion of such funding matures in more than 5 years.

10. Financial Instruments

Interest rate risk profile of financial assets and liabilities.

Financial assets

The Company has short term sterling deposits of £1,894,000 (2001: £5,323,000) that earn interest at a floating rate based on the prevailing bank base rate.

As set out in the Director's report on page 2, the Company has an undertaking that Birmingham City Council shall pay the Company a sum equal to the lower of the Loan Stock £73m and the cost of the premises disclosed in the Company's balance sheet as at 31 March 1999 of £65,587k. It is not practical to give a fair value of this financial asset as the Company's fixed assets do not have an easily obtainable open market value.

Financial liabilities

The interest rate profile of the Company's financial liabilities at 31 March 2002 was:

	Fixed Rate £000	No Interest £000	Non-equity Shares £000	Total £000
Sterling	75,500	2,400	100	78,000

	Fixed rate financial liabilities		Financial liabilities o which no interest is paid Year
	Weighted average interest rate %	Weighted average period to which rate relates Years	
Sterling	7.81	22	22

The preference shares do not carry any rights to receive dividends or to participate in any profits of the Company. As these shares do not have a maturity date, in order to prevent distortion of the 'weighted average period to maturity' figure, they have been excluded from the calculation.
