The following accounting policies have been consistently applied in dealing with the items which are considered material in relation to the company's accounts.

Basis of preparation

The accounts have been prepared under the historical cost accounting rules.

Cash flow

The accounts do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard 1 "Cash Flow Statements".

Turnover

Turnover represents the amount (excluding VAT) derived from the provision of goods and services to customers during the year.

Fixed assets and depreciation

Depreciation is provided, after taking account of any grants receivable, at the following annual rates on a reducing balance basis.

Fixtures & Fittings	25%

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Provision is made for deferred tax only to the extent that it is probable that an actual liability will crystallise.
