ACCOUNTING POLICIES

1

Basis of preparing the financial statements

The company made a loss for the year of £22,754 (2008 £68,330) and at 30 September 2009 had net current liabilities of £379,607 (2008 £499,565) and overall net liabilities of £898,668 (2008 £1,016,343) In order to continue as a going concern, the company is dependent upon the ongoing support of its holding company, a fellow subsidiary, a related pension fund and the company's bank, provided by way of loans and overdrafts totalling £1,067,328 (2008 £1,077,114) The various related parties have indicated that they will not demand repayment until working capital permits. On this basis, and assuming the bank's ongoing support, the directors feel that it is appropriate for these financial statements to be prepared on a going concern basis.

Should the company be unable to continue trading, adjustments would have to be made to reduce the value of assets to their recoverable amount, to provide for any further liabilities which might arise, and to reclassify fixed assets and long-term liabilities as current assets and liabilities

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

Long leasehold - 20% on cost
Plant and machinery - 15% on cost
Fixtures and fittings - 20% on cost
Motor vehicles - 33% on cost

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads
