For the year ended 30 September 2013 the company was entitled to exemption from audit under section 477(1) of the Companies Act 2006. Members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476. The directors acknowledge their responsibility for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

The directors have taken advantage, in the preparation of the abbreviated accounts, of the provisions applicable to companies subject to the small companies regime.

Mr K Williams
Director

1 Accounting policies

Basis of preparation

The accounts are prepared under the historical cost convention modified to include the revaluation of freehold investment property and in accordance with applicable accounting standards

Cash flow statement

The company qualifies as a small company under the Companies Act 2006. The directors have elected to take advantage of the exemption under FRS1 not to prepare a cash flow statement

Turnover

Turnover represents net invoiced sales of services, excluding VAT

Depreciation

Depreciation of tangible fixed assets other than freehold buildings and freehold investment property is provided on cost over their estimated useful lives. The annual rates and methods of depreciation are as follows

Freehold buildings	2% straight line (buildings only)
Plant and machinery	15% reducing balance basis
Motor vehicles	25% reducing balance basis

Investment properties

Investment property is revalued annually on an open market basis, the net surplus or deficit being taken to a revaluation reserve unless a deficit on an individual property is expected to be permanent in which case it is charged to the profit and loss account. The directors believe that no depreciation or amortisation is necessary in order for the financial statements to give a true and fair view, since the current value of investment property, and changes in that current value, are of prime importance rather than a calculation of systematic annual depreciation and amortisation. Depreciation and amortisation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been shown cannot be separately identified or quantified

Fixed asset investments

Fixed asset investments are stated at historical cost less provision for any diminution in value

Current asset investments

Investments are included at cost less amounts written off. Profits or losses arising from disposal of current asset investments are treated as part of the result from ordinary activities

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax is not recognised when assets are revalued unless, by the balance sheet date, the company has entered into a binding agreement to sell the assets and recognised the gains or losses expected to arise on sale

Leasing

Fixed assets acquired under hire purchase contracts are included in the balance sheet at cost and an appropriate provision is made for depreciation

The outstanding liabilities under such agreements less interest not yet due are included in creditors

Pensions

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
