**NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 16 NOVEMBER 2018 TO 30 APRIL 2020**

1. STATUTORY INFORMATION

Olive Branch Group Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standards applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies' regime.

The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below.

The directors have considered the impact and risk on the company of COVID-19 and the company's prospects, recognising the high degree of uncertainty. The directors have concluded that with the right management actions the company is a going concern for at least 12 months following the signature of the financial statements. Accordingly the directors have prepared the financial statements on this basis.

Turnover

Turnover is measured at the fair value of the consideration received for the sale of properties, excluding discounts, rebates, value added tax and other sales taxes.

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

Taxation

Taxation for the period comprises current and deferred tax. Tax is recognised in the Statement of Income and Retained Earnings, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Financial assets

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Basic financial assets, which include trade and other receivables and cash and bank balances are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method, unless the arrangement constitutes a financial transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Financial liabilities

Basic financial liabilities, which include trade and other payables, are initially measured at transaction price and subsequently measured at amortised cost, unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Equity instruments

Equity instruments issued by the company are recorded at the fair value of the proceeds received net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

7. POST BALANCE SHEET EVENTS

The impact on the company subsequent to the balance sheet date as a result of the steps taken by the Government in March 2020 to control the Covid-19 pandemic is uncertain. This is the case for the majority of businesses in the UK and around the World.

The Directors do not consider that the Covid-19 pandemic has had a material impact on the company's financial position at the balance sheet date and thus no adjustments have been made to the carrying values of the company's assets and liabilities as at 30 April 2020.
