11. Pensions - Defined Benefit Scheme

The company operated a defined benefit pension scheme for the benefit of the employees. The assets of the scheme were part of the ITB Pension Funds Open Fund, and were administered by its trustees in a fund independent from those of the company However, by 1st April 2005 all active members of the scheme had transferred into a section of the same scheme established by Skills for Logistics. In both of the years ended 31st March 2004 and 2005, due to the central ITB Pension Fund having accumulated excess actuarial reserves, employer contributions to the Scheme were met from those reserves.

The most recent actuarial valuation of the scheme was carried out as at 31st March 2004, and concluded that the overall scheme was in surplus, albeit less than at the previous valuation three years earlier. The company's section of the scheme retained an estimated surplus of £126,383. Conversely, having been established as a new section only six months before this latest valuation, an estimated deficit of £38,154 was attributed to the Skills for Logistics section.

With the approval of the trustees of both companies, and of the scheme itself, an agreement was entered into in July 2006 resulting in Skills for Logistics assuming RHDTC's residual liabilities to the scheme in return for inhenting RHDTC's share of the overall scheme surplus and a payment of £156,100
