**TAYLORS HOLDINGS LIMITED****NOTES ON ABBREVIATED FINANCIAL STATEMENTS****28th February 2009****1 Accounting policies****Basis of accounting**

The financial statements have been prepared under the historical cost accounting rules.

The company has taken advantage of the exemption from preparing a cash flow statement as conferred by Financial Reporting Standard No. 1 on the grounds that it qualifies as a small company under the Companies Act 1985.

**Compliance with accounting standards**

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

**Consolidation**

The financial statements contain information about Taylors Holdings Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 248 of the Companies Act 1985 from the requirement to prepare consolidated financial statements, as the company and its subsidiary comprise a small group.

**Deferred taxation**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
