ELJ SMEDLEY LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS FOR THE
YEAR ENDED 31 JULY 2014

1 ACCOUNTING POLICIES

BASIS OF PREPARATION

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The accounts do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirements to prepare such a statement.

GOING CONCERN

The financial statements have been prepared on a going concern basis following confirmation from the directors that Mr & Mrs E L J Smedley will not draw the balance due to them on their loan account unless there are sufficient clear funds to do so once all other creditors have been paid.

TURNOVER

Turnover represents amounts chargeable, net of value added tax, in respect of work undertaken during the year.

DEPRECIATION

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

<i>Asset class</i>	<i>Depreciation method and rate</i>
Plant and machinery	WDV at 31.07.11 written off equally over three years
Motor vehicles	equally over 4 years
Office equipment, including computers	at 15% per annum on a straight line basis

STOCKS AND WORK IN PROGRESS

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

FINANCIAL INSTRUMENTS

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
