## Notes to the Abridged Financial Statements

---

### 1 Accounting policies

#### Statement of compliance

These abridged financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006 as applied by LLP's and the Statement of Recommended Practice (SORP).

#### General information and basis of accounting

The limited liability partnership is incorporated in the United Kingdom under the Limited Liability Partnership Act 2000. The address of the registered office is given on the limited liability partnership information page. The nature of the limited liability partnership's operations and its principal activities are given in the members' report.

These abridged financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

#### Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the Limited Liability partnership activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

The Limited Liability partnership recognises revenue when the amount of revenue can be reliably measured, it is probable the future economic benefits will flow into the entity and specific criteria have been met for each of the company activities.

#### Members' remuneration and division of profits

The SORP recognises that the basis of calculating profits for allocation may differ from the profits reflected through the financial statements prepared in compliance with recommended practice, given the established need to seek to focus profit allocation on ensuring equity between different generations and populations of members.

Consolidation of the results of certain subsidiary undertakings, the provision for annuities to current and former members, pension scheme charges, the spreading of acquisition integration costs and the treatment of long leasehold interests are all items which may generate differences between profits calculated for the purpose of allocation and those reported within the abridged financial statements. Where such differences arise, they have been included within other amounts in the balance sheet.

Members' fixed shares of profits (excluding discretionary fixed share bonuses) and interest earned on members' balances are automatically allocated and, are treated as members' remuneration charged as an expense to the profit and loss account in arriving at profit available for discretionary division among members.

The remainder of profit shares, which have not been allocated until after the balance sheet date, are treated in these financial statements as unallocated at the balance sheet date and included within other reserves.

#### Taxation

The taxation payable on the partnership profits is the personal liability of the members, although payment of such liabilities is administered by the partnership on behalf of its members. Consequently, neither partnership taxation nor related deferred taxation is accounted for in these abridged financial statements. Sums set aside in respect of members tax obligations are included in the balance sheet within loans and other debts due to members, or are set against amounts due from members as appropriate.

#### Tangible fixed assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

#### **2 Loans and other debts due to members**

Loans and other debts due to members rank equally with debts due to ordinary creditors in a winding up.
