1. ACCOUNTING POLICIES

The financial statements are prepared in accordance with applicable accounting standards. The particular accounting policies adopted are described below:

(a). Accounting Convention

The financial statements are prepared under the historical cost convention.

(b). Tangible Fixed Assets

Depreciation is provided on a straight line or reducing balance basis over the expected useful lives of each category of tangible fixed assets :

Freehold Buildings	2 % per annum on cost
Plant, Machinery, Fixtures and Fittings	10 % per annum on written down value
Motor Vehicles	25 % per annum on written down value

(c). Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes all direct costs incurred in bringing the stocks to their present location and condition, including where appropriate, a proportion of manufacturing overheads.

(d). Leases and Hire Purchase Contracts

Assets held under finance leases and hire purchase contracts and the related obligations are recorded in the balance sheet at the fair value of the assets at the inception of the agreements. The excess of the payments over the recorded obligations are treated as finance charges which are amortised over the term of each agreement to give a constant rate of charge on the remaining balance of the obligation.

Rental costs under operating leases are charged to the profit and loss account in equal annual amounts over the periods of the leases.

(e). Pension Costs

The company has a defined contribution pension scheme. The cost of the contributions made by the company to the scheme are charged to the profit and loss account as incurred.

(f). Deferred Taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may crystallise.

(g). Cash Flow Statement

The company qualifies as a small company under the Companies Act 1985. The directors have elected to take advantage of the exemptions under FRS 1 not to prepare a cash flow statement.

(h). Finance Cost of Debt

The finance cost of debt, including interest and issue costs, are allocated to each period over the term of the debt and charged to the profit and loss account at a constant rate on the outstanding amount.
