### **Notes to the Financial Statements for the Year Ended 29 February 2020**

#### **1 General information**

The company is a private company limited by share capital incorporated in the United Kingdom.

The address of its registered office is:

16 South Street  
Bishops Stortford  
Hertfordshire  
United Kingdom  
CM23 3AT

#### **2 Accounting policies**

##### **Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

##### **Statement of compliance**

These financial statements have been prepared in accordance with the provisions of Financial Reporting Standard 102 Section 1A – small entities.

##### **Basis of preparation**

The financial statements have been prepared under the historical cost convention.

The financial statements are prepared in sterling which is the functional currency of the company and are rounded to the nearest £.

##### **Revenue recognition**

Revenue is recognised to the extent that the Company obtains the right to consideration in exchange for its performance. Revenue represents the amount charged, net of value added tax, by the company as a wholesaler for goods provided to the company's retail subsidiary during the period. The following criteria must also be met before revenue is recognised:

Revenue from the sale of goods and services is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on dispatch of the goods, or when services are provided and the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Deferred revenue arises when cash is received in advance of revenue being earned, either in the form of deposits received for spectacles which have not been collected or direct debit payments received for contact lenses in advance of delivery of the lenses to the customer. Deferred revenue is a liability on the Balance Sheet until it is earned.

### Notes to the Financial Statements for the Year Ended 29 February 2020

#### 2 Accounting policies (continued)

##### Tax

Current tax is provided at amounts expected to be paid (or recovered) using tax rates and laws which have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences which are differences between taxable profits and total comprehensive income that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements, except that unrelieved tax losses and other deferred tax assets are recognised only to the extent that the directors consider that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

##### Key areas of estimation uncertainty and judgments

###### Impairment of non-financial assets

Where there are indicators of impairment of individual assets, the company performs impairment tests based on fair value less costs to sell or a value in use calculation. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction on similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the company is not yet committed to or significant future investments that will enhance the performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash flows and the growth rate used for extrapolation purposes.

###### Taxation

Management estimation is required to determine the amount of deferred tax assets that can be recognised, based upon likely timing and level of future taxable profits together with an assessment of the effect of future tax planning strategies.

###### Deferred revenue

Customer data is used to estimate the value of uncollected spectacle sales which should be deferred at the year-end. Deferred revenue for contact lens sales purchased by direct debit is estimated using system reports which allow a calculation of where each customer is in their payment cycle, and therefore how much has been paid in advance of delivery of goods.

##### Tangible fixed assets

Tangible assets are stated in the Balance Sheet at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

###### Depreciation

Depreciation is provided on a straight line basis at the following rates in order to write off the cost less estimated residual value of each asset over its estimated useful life (or if held under a finance lease, over the lease term, whichever is the shorter):

Asset class	Depreciation method and rate
Furniture, fittings and equipment	14-25% on cost
Motor vehicles	25% on cost
Other property, plant and equipment	14-33% on cost

## **Bishops Stortford Specsavers Limited**

### **Notes to the Financial Statements for the Year Ended 29 February 2020**

#### **2 Accounting policies (continued)**

##### **Impairment of non-financial assets**

The company assesses at each reporting date whether an asset may be impaired. If any such indication exists the company estimates the recoverable amount of the asset. If it is not possible to estimate the recoverable amount of the individual asset, the company estimates the recoverable amount of the cash generating unit to which the asset belongs. The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. If the recoverable amount is less than its carrying amount, the carrying amount of the asset is impaired and it is reduced to its recoverable amount through an impairment in profit and loss unless the asset is carried at a revalued amount where the impairment loss of a revalued asset is a revaluation decrease. An impairment loss recognised for all assets is reversed in a subsequent period if and only if the reasons for the impairment loss have ceased to apply.

##### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value. The directors have included the balances owed to and from Specsavers Finance (Guernsey) Limited, the Group Treasury Company within cash equivalents. If the overall cash balance with the Group Treasury Company is overdrawn, this is classified as a current liability alongside any other overdrawn external cash balances.

##### **Short term debtors and creditors**

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account in other operating expenses.

##### **Stocks**

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the weighted average method. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

##### **Share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

##### **Dividends**

Dividend distribution to the company's shareholders is recognised as a liability in the financial statements in the reporting period in which the dividends are declared.

## Bishops Stortford Specsavers Limited

### Notes to the Financial Statements for the Year Ended 29 February 2020

#### 2 Accounting policies (continued)

##### Dividend income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably).

##### Investments

Investments held as fixed assets are stated at cost less provision for any permanent diminution in value.

##### Group Accounts

The Group is small sized and as a result the parent company has taken advantage of the exemption available not to prepare statutory consolidated financial statements granted under Section 399 of the Companies Act 2006. Accordingly these financial statements present information about the company as an individual undertaking and not about its group.

#### 3 Staff numbers

The average number of persons employed by the company (including directors) during the year, was 0 (2019: 0).

#### **Total trade and other debtors**

Deferred tax assets of £5,737 (2019: £5,984) are classified as non current.

In the 2019 financial statements, the taxation and social security amount was a debtor balance but was disclosed under Creditors. This has been corrected in these financial statements, by disclosing this balance under Debtors. There has been no impact to the net assets or equity of the Company in either the current or prior year as a result of this error.

#### **14 Events after the reporting period**

If dividends were paid after the year ended 29 February 2020, which will be accounted for in the shareholders' equity as an appropriation of retained earnings in the year ended 28 February 2021, the financial statements do not reflect these. The company has controls in place to ensure that there are sufficient retained earnings to cover dividend payments based on the latest available management information at the dividend declaration date so that the company remains in a net asset position.

The cost of disclosing and repeatedly updating the quantum of these dividends, right up to the date of signing the financial statements, is therefore considered to exceed any benefit to the users thereof.

Subsequent to the balance sheet date, the World Health Organization declared a global pandemic on 11 March 2020 due to the ongoing effects of COVID-19. The store remained open in some capacity, complying with the relevant restrictions and government advice in place at the time. Consequently there has been a reduction in the company's revenue which cannot be reliably estimated, however the company continues to trade and the directors do not expect the going concern status of the company to be affected.
