Report of the directors for the year ended 30 September 2005

The directors present their report and the audited consolidated financial statements for the year ended 30 September 2005.

Principal activity

The principal activity of the group is the manufacture, import and distribution of medical and surgical products.

Review of business and future developments

The consolidated profit and loss account for the year is set out on page 5.

Both the level of business for continuing activities and the year-end financial position were satisfactory.

Results and dividends

The profit for the year was £15,013,000 (2004: £13,818,000). The directors do not recommend the payment of a dividend for the year ended 30 September 2005 (2004: £nil).

Directors

The directors of the company who held office during the year ended 30 September 2005 and in the period to date were:

D R West

C Blebta

B Skeet

(resigned 11/05/05)

Report of the directors for the year ended 30 September 2005

Directors' interests in shares of the company

No director held a beneficial interest in the company or any other group company at 30 September 2005, or at any time during the year.

The Company has taken advantage of the exemption under Statutory Instrument 85/802 not to disclose details of directors' interests in shares or share options held in the ultimate parent company, Tyco International Limited, which is incorporated outside of the UK.

Employees

The group's policy is to consult and discuss with employees, through staff meetings, matters likely to affect employees' interests.

Information on matters of concern to employees is given through information bulletins and reports which seek to achieve a common awareness on the part of all employees of the financial and economic factors affecting the group's performance.

The group encourages the involvement of employees in its performance through regular communication from the companies' managers to all employees providing up to date information on business matters and results. Also, where possible, employees' remuneration contains an element linked to business performance to give an opportunity to participate in the success of the business.

The group's policy is to recruit disabled workers for those vacancies that they are able to fill. All necessary assistance with initial training courses is given. Once employed, a career plan is developed so as to ensure suitable opportunities for each disabled person. Arrangements are made, where possible, for retraining employees who become disabled, to enable them to perform work identified as appropriate to their aptitudes and abilities.

Auditors

Pursuant to section 386 of the Companies Act 1985, an elective resolution was passed on September 20th 2004 by the company, dispensing with the requirement to appoint auditors annually. Therefore, Deloitte & Touche LLP are deemed to continue as auditors.

By order of the board:

Coller

C Blebta Director

6 April 2006

Statement of directors' responsibilities

The directors are required by United Kingdom company law to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the company and the group as at the end of the financial year and of the profit or loss of the group for that year.

The directors confirm that suitable accounting policies have been used and applied consistently and reasonable and prudent judgements and estimates have been made in the preparation of the financial statements for the year ended 30 September 2005. The directors also confirm that applicable accounting standards have been followed and that the financial statements have been prepared on the going concern basis.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for taking reasonable steps to safeguard the assets of the company and the group and to prevent and detect fraud and other irregularities.

Independent auditors' report to the members of CDK (UK) Limited

We have audited the financial statements of CDK (UK) Limited which comprise the profit and loss account, the balance sheets and the related notes 1 to 28. These financial statements have been prepared under accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As described in the statement of directors' responsibilities, the company's directors are responsible for the preparation of the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibility is to audit the financial statements in accordance with relevant United Kingdom legal and regulatory requirements and auditing standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company is not disclosed.

We read the directors' report for the above year and consider the implications for our report if we become aware of any apparent misstatements.

Basis of audit opinion

We conducted our audit in accordance with United Kingdom auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the affairs of the company and the group at 30 September 2005 and of the profit of the group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

C Blebta Director

asulo

1 Principal accounting policies

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards in the United Kingdom. A summary of the more important group accounting policies is set out below.

Basis of consolidation

The consolidated profit and loss account and balance sheet include the financial statements of the company and all its subsidiary undertakings made up to 30 September 2005. The results of subsidiaries sold or acquired are included in the consolidated profit and loss account up to, or from, the date on which control passes. Intra-group sales and profits are eliminated fully on consolidation.

Cash flow statement

The company has taken advantage of the exemption in FRS 1 (Revised) from the requirement to produce a cash flow statement on the grounds that it is a wholly owned subsidiary of Tyco International Limited. The parent company has prepared a consolidated cash flow statement including cash flows of this company for the year ended 30 September 2005.

Intangible fixed assets

Goodwill arising on consolidation represents the excess of the fair value of the consideration given over the fair value of the identifiable net assets acquired. Goodwill on acquisition of subsidiaries is included as an intangible asset in the balance sheet and is amortised on a straight line basis over no more than 20 years. This is the period over which the directors estimate that the values of the underlying businesses acquired are expected to exceed the value of the underlying assets. A provision is made for any impairment in the value of goodwill. Goodwill arising in prior years, before the implementation of FRS 10, on the acquisition of subsidiaries has been written off immediately against a reserve set up for that purpose. The directors have decided that this previously eliminated goodwill should remain as such and it has therefore been shown in the profit and loss reserves. This goodwill will be charged/credited to the profit and loss account on subsequent disposal of the related business. Other intangible assets are amortised on a straight-line basis over 10 years, which, in the opinion of the directors, represents their estimated useful life.

1 Principal accounting policies (continued)

Tangible fixed assets

The cost of tangible fixed assets is their purchase cost, together with any incidental expenses of acquisition. Depreciation is calculated so as to write off the cost of tangible fixed assets, less their estimated residual values, on a straight-line basis over the expected useful economic lives of the assets concerned as follows:

Freehold buildings 40 years

Short leasehold buildings improvements 20 years (or term of lease if shorter)

Plant and machinery 15 years

Freehold land is not depreciated, neither does the group depreciate assets in the course of construction until operationally in use.

Interest is capitalized gross during the period of construction where it relates either to the financing of major projects with long periods of development or to dedicated financing of other projects. All other interest is charged against income.

Demonstration equipment is depreciated over its useful economic life of three years. Equipment loaned to customers to generate income from the sale of related consumable products is depreciated over its estimated useful economic life of five years.

Provision is made for any impairment.

Government grants

Grants that relate to specific capital expenditure are treated as deferred income, which is then credited to the profit and loss account over the expected useful life of the related asset.

Leases

Assets held under finance leases and other similar contracts, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the profit and loss account over the period of the leases to produce a constant rate of charge on the balance of capital repayments outstanding.

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

Finance costs which are directly attributable to the construction of tangible fixed assets are capitalised as part of the cost of those assets. The commencement of capitalisation begins when both finance costs and expenditures for the asset are being incurred and activities that are necessary to get the asset ready for use are in progress. Capitalisation ceases when substantially all the activities that are necessary to get the asset ready for use are complete.

Notes to the financial statements for the year ended 30 September 2005

1 Principal accounting policies (continued)

Stocks and work in progress

Stocks and work in progress are stated at the lower of cost and net realisable value. In general, cost is determined on a first in first out basis and includes transport and handling costs. In the case of manufactured products cost includes all direct labour and material costs and production overheads based on the normal level of activity. Net realisable value is based on estimated selling price less costs expected to be incurred on disposal. Provision is made where necessary for obsolete, slow moving and defective stocks.

Foreign currencies

Transactions denominated in foreign currencies are recorded in sterling at the exchange rates ruling on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate ruling at the balance sheet date. All exchange gains and losses are reported as part of the results for the year.

Turnover

Turnover, which excludes Value Added Tax and is stated net of trade discounts, represents the invoiced value of goods and services supplied. Turnover is recognised at the point of delivery to the customer.

Taxation

Current tax is provided at amounts expected to be paid or recovered using tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Notes to the financial statements for the year ended 30 September 2005

1 Principal accounting policies (continued)

Pension costs

The group operates a number of pension schemes in the United Kingdom.

In the case of defined benefit pension schemes, the pension costs charged against profits are based on an actuarial method and actuarial assumptions designed to spread the anticipated pension costs over the service lives of employees in the pension schemes, in a way that seeks to ensure that the regular pension cost represents a substantially level percentage of the current and expected future pensionable salary in the light of current actuarial assumptions. Variations from regular cost are spread over the average remaining service lives of current employees in the pension schemes.

FRS 17 "Retirement Benefits" will require a market rather than an actuarial valuation of defined benefit schemes. This will result in a greater volatility of the pension scheme's surplus or deficit as the market valuation will be taken at each balance sheet date and will be reflective of a particular point in time.

At 30 September 2005, the company has adopted the transitional disclosures of FRS 17 and shown in the notes to the financial statements a valuation of its defined benefit schemes on the market-related basis prescribed by FRS 17 at that date and the amount which would have been charged in the profit and loss account and statement of total recognised gains and losses had FRS 17 been fully implemented.

In the case of defined contribution schemes, the cost is charged to the profit and loss account in the period in which it is incurred.

2 Turnover

The analysis by geographical area of the group's turnover, which all relates to the principal activity, is set out below:

	2005 £'000	2004 £'000
Geographical segment		2 000
United Kingdom and the Republic of Ireland	178,522	187,002
Rest of Europe	-	1,675
Americas/Far East/Australia		23
	178,522	188,700

The group's activities consist solely of the manufacture, import and distribution of surgical and medical products therefore no further segmental information is reported.

Notes to the financial statements for the year ended 30 September 2005

3 Continuing/discontinued activities

	Continuing	Discontinued	Total 2004
	£'000	£'000	£'000
Turnover	176,452	12,248	188,700

Operating exceptional items (notes 4 and 5)	-	3,173
Non-operating exceptional items - loss on disposal of fixed assets	-	483
- loss on disposal of business	92	2,899

Notes to the financial statements for the year ended 30 September 2005

9 Tax credit on profit on ordinary activities

	2005	2004
	£'000	£'000
United Kingdom corporation tax at 30% (2004: 30%)		
Current	70	-
Over-provision in respect of prior years	•	(1,858)
Overseas taxation	-	2
Total current tax charge/(credit)	70	(1,856)
Timing differences, origination and reversal	(2,362)	(1,254)
Adjustment in respect of prior years	(1,532)	(4,154)
Total deferred tax	(3,894)	(5,408)
Tax credit on profit on ordinary activities	(3,824)	(7,264)

The differences between the total current tax shown and the amount calculated by applying the standard rate of UK corporation tax to profit before tax are as follows:

Profit on ordinary activities before tax	11,189	6,554
Tax on profit on ordinary activities at standard		
UK corporation tax rate of 30%	3,358	1,966
Expenses not deductible for tax purposes, net	644	1,740
Capital allowances in excess of depreciation	1,457	1,878
Other short term timing differences	933	(115)
Group relief received	(6,322)	(5,467)
Over provision in respect of prior years		(1,858)
Current tax charge/(credit)for the year	70	(1,856)

10 Results for the financial year

As permitted by section 230 of the Companies Act 1985, the holding company's profit and loss account has not been separately disclosed in these financial statements therefore these accounts present information about the group, and not about the company as an individual entity. The profit for the financial year of the holding company was £1,026,000 (2004: £105,000).

Obligations under finance leases are secured on the related assets.

18 Provisions for liabilities and charges

Group	Warranty Provision £'000	Pension provision £'000	Deferred taxation £'000	Total £'000
At 1 October 2004	54	753	483	1,290
Utilised during the year	(54)	(126)	(483)	(663)
Movement during the year	24	-	<u> </u>	24
At 30 September 2005	24	627	_	651

The pension provision relates to a pension "best benefit guarantee" affecting approximately 180 former and current employees. The valuation of this liability was assessed by the company's actuaries in September 2005 (see note 20). It is expected that these pension costs will be incurred as and when current employees retire.

The movement of the deferred tax asset / (liability) is as follows:

	Deferred Taxation
	£'000
At 1 October 2004	(483)
Utilised during the year	3,895
At 30 September 2005 (note 15)	3,412

20 Pension and similar obligations

(a) At the end of the prior year the group merged the Kendall Camp Retirement and Death Benefit Plan, and the Kendall UK Pension Plan, with the Kendall UK Plan transferring in to the Kendall Camp Plan, and the combined scheme being renamed the Tyco Healthcare UK Defined Benefit Pension Scheme. This scheme also includes a defined contribution (money purchase) section that closed to the payment of future contributions on 20 November 2001.

The assets of the scheme are held in separate trustee-administered funds. The contributions are determined by an independent qualified actuary on the basis on triennial valuations using the projected unit method.

The latest actuarial review of the scheme was carried out as at 31 December 2004. The main actuarial assumptions were:-

Return on investments pre retirement 7.50%

Return on investment post retirement 6.00%

General salary inflation 4.25%

Pension increases 2.75% for index-linked pensions

The assumptions which have the most significant effect on the results of the valuations are those relating to the rate of return on investments and the rates of increase in salaries and pensions.

Notes to the financial statements for the year ended 30 September 2005

20 Pension and similar obligations (continued)

At 31 December 2004 the market value of the scheme's assets amounted to £6,136,000. The actuarial value of those assets represented 77% of the benefits that had accrued to members after allowing for expected future increases in salaries. On a discontinuance basis there was a deficit of 17% of liabilities.

The total pension charge for the group for the scheme was £327,000 (2004: £358,000). This was after allowing for amortisation of deficits that are being recognised over the average working lifetime of active members.

Company contributions were paid in the accounting period at the rate of 30.5% of Pensionable Earnings in respect of members of the Kendall Camp section, and 12.7% of Pensionable Pay in respect of the Kendall UK section until 1 December 2003. Company contributions from 1 December 2003 and going forward will be at the rate of 26.5% of Pensionable Earnings in respect of the Kendall Camp section and 26.5% of Pensionable Pay in respect of members of the Kendall UK section. This will be subject to review at future actuarial valuations. In addition there have been contributions paid in respect of individual members relating to historic benefit augmentations.

Given the closed nature of the scheme and all other things being equal, contributions in future periods will be required to rise as the costs under the projected unit method increase with increasing member age.

20 Pension and similar obligations (continued)

Transitional FRS 17 disclosure

The defined benefit element of the scheme was valued using the basis prescribed by FRS 17 on 30 September 2005. The assumptions which have the most significant effect on the results of the valuation are those which relate the expected rate of return on investments to the rate of increase in pensionable earnings, and the expected rate of increase in pensions.

Assumptions:		2005		2004		2003
Rate of increase in pensionable earnings		4.00%		4.00%		3.75%
Rate of increase in pensionable pay		4.00%		4.00%		3.75%
Rate of increase in present and future pensions (where index linked)		2.75%		2.75%		2.50%
Discount rate		5.0%		5.50%		5.50%
The assets in the pension scheme and th	Rate of return	rate of retr 2005 £m	urn : Rate of return	2004 £m	Rate of return	2003 £m

Total net assets adjusted for pension liability	79,980	64,970

Notes to the financial statements for the year ended 30 September 2005

20 Pension and similar obligations (continued)

(b) A Tyco defined contribution pension scheme was set up for certain employees effective from 1 September 1998 under Tyco Holdings (UK) Limited and this scheme received Inland Revenue approval under Chapter 1, Part XIV of ICTA 1988, during 1999. Employee contributions are set at a minimum of 3% of gross earnings, with company contributions (including the age-related NI rebate paid to the scheme by the DSS as a result of contracting out of SERPS) ranging from 3% to 12% depending on the member's age. The assets of this scheme are held in separate trustee administered funds.

Both employee and employer contributions are paid into individual retirement accounts every month for investment by the trustees in accordance with members' investment objectives.

The pension charge for the year was £2,063,000 (2004: £2,099,000).

Some members of this scheme participate in a best benefits guarantee. Under this guarantee, the group paid £126,000 (2004: £1,287,000) into the scheme during the year. An accrual for future liabilities of £627,000 (2004: £752,000) based on an actuarial valuation undertaken as at 30 September 2005, is held by the group.

The main actuarial assumptions for the calculation of the best benefit guarantee provision at 30 September 2005 are:

Return on investment pre-retirement	5.50 %.
Return on investment post retirement	4.75 %
General salary inflation	4.00 %
Pension increases	2.75 %

The other assumptions that have the most significant effect on the results of the valuation are those that relate to the expected return on investments, being 8% per annum for equities and 4.75% per annum for cash.

21 Called up share capital

1,900,000 redeemable ordinary shares of £1 each 47,552,830 ordinary shares of £1 each	1,900 47,553	1,900 47,553
Allotted, called up and fully paid	1 000	1.000
	51,299	51,299
49,298,830 ordinary shares of £1 each	49,299	49,299
Authorised 2,000,000 redeemable ordinary shares of £1 each	2,000	2,000
	£'000	£'000
	2005	2004

The company has the right to redeem at par some or all of the redeemable ordinary shares after giving to the shareholders not less than 28 days notice in writing.

The redeemable ordinary shares rank equally with the ordinary shares in respect of dividend, voting, and capital distribution rights on a winding up.

24 Financial commitments

Lease commitments

The group has financial commitments in respect of non-cancellable operating leases of plant and machinery. The rentals payable under these leases in the next year are as follows:

	2005 £'000	2004 £'000
Expiring within one year	286	270
Expiring between two and five years inclusive	850	777
Expiring in over five years	-	20
	1,136	1,067

In addition the group leases certain land and buildings. The rental payments under these leases in the next year are as follows:

	2005 £'000	2004 £'000
Expiring between two and five years inclusive	65	85
	65	85

25 Contingent liabilities

The group has indemnified its banker to the amount of £20,000 (2004: £20,000) in respect of certain Customs and Excise duties secured by a floating charge over stock and debtors.

Together with certain other subsidiaries of Tyco International Limited, the company has given a guarantee of repayment to Tyco International Group S.A. (TIGSA), another group company, in respect of amounts owing or to become owing to TIGSA by Tyco Group SARL, another group company, whether at maturity or at an earlier date. The effective date for this guarantee is the date on which, if ever, the Standard & Poor's rating for the long-term unsecured senior debt of TIGSA is first reduced to a rating lower than 'BBB', as defined by Standard & Poor's. The maximum amount guaranteed by the company is limited to the total of the amounts owing to Tyco Group SARL by the company and its affiliate guarantors, Tyco Healthcare (UK) Manufacturing Limited and Tyco Healthcare (UK) Commercial Limited. At 30 September 2005 the maximum guaranteed was £61.3 million (2004: £61.0 million). The Directors have considered the impact of the guarantee on the solvency of the company and the group and consider that Tyco Group SARL will be able to meet its repayment obligations under the loans made to it by TIGSA and, as such a call on the guarantee is unlikely to be made, it is not considered necessary to make any financial provision for such a call or demand.

26 Capital commitments

	2005 £'000	
Future capital expenditure contracted but not provided for	3,743	961

27 Ultimate parent company and controlling party

The directors regard Tyco Group S.A.R.L., a company registered in Luxembourg, as the immediate controlling party by virtue of its 73.4% holding in the share capital of the company. The remaining 26.6% is held by Tyco Holdings VII APS, a company registered in Denmark. The directors regard Tyco International Limited, a company incorporated in Bermuda, as the ultimate parent company and controlling party. Tyco International Limited is the parent of the largest group to consolidate these financial statements.

Copies of the consolidated financial statements of Tyco International Limited are available from the Company Secretary, Tyco Healthcare UK Limited, 154 Fareham Road, Gosport, Hampshire, PO13 0AS.

28 Related party transactions

In accordance with the exemption allowed by FRS 8 "Related Party Disclosures", transactions with other undertakings within the Tyco International Limited group have not been disclosed in these financial statements.
