Fixtures, fittings and equipment	-	25% straight line

1.5. Deferred taxation

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the director consider that a liability to taxation is unlikely to materialise.

1.6. Going concern

These financial statements have been drawn up on a going concern basis because the company's director has agreed to provide such financial support as the company requires to enable it to meet its liabilities as and when they fall due, for a period of not less than one year from the approval date of these financial statements.
