Notes

(forming part of the financial statements)

1 Accounting policies

DOCOMO Europe Limited is a company limited by shares and incorporated and domiciled in the UK. These financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard* applicable in the UK and Republic of Ireland ("FRS 102") as issued in August 2014 and on the historical cost accounting rules. The amendments to FRS 102 issued in July 2015 and effective immediately have been applied. The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000. In the transition to FRS 102 from old UK GAAP, the Company has made no measurement and recognition adjustments.

The Company has taken advantage of the exemption to prepare consolidated financial statements under Section 401 of the Companies Act 2006, on the grounds that it is a wholly owned subsidiary undertaking of NTT DOCOMO, Inc., a company registered in Japan. These financial statements present information about the Company as an individual undertaking and not about its group.

The Company's ultimate parent undertaking, Nippon Telegraph and Telephone Corporation, includes the Company in its consolidated financial statements. The consolidated financial statements of Nippon Telegraph and Telephone Corporation are available to the public and may be obtained from 11-1, Nagata-cho 2-chome, Chiyoda-ku, Tokyo 100-6150, Japan. In these financial statements, the company is considered to be a qualifying entity and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to end of the period;
- Cash Flow Statement and related notes; and
- Key Management Personnel compensation.

As the consolidated financial statements of NTT Docomo Japan include the equivalent disclosures, the Company has also taken the exemptions under FRS 102 available in respect of the following disclosures:

• The disclosures required by FRS 102.11 Basic Financial Instruments and FRS 102.12 Other Financial Instrument Issues in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1.

Going concern

On 01 August 2015 the Company sold certain assets except for the investment in subsidiary DOCOMO Communications Laboratories GmbH to NTT DOCOMO, Inc. identified in the Asset Transfer Agreement, as part of an internal group reorganisation for the benefits of the establishment in the UK. However, after making enquiries, the directors still have a reasonable expectation that the business has adequate resources to continue in operational existence for the foreseeable future. The Company will continue to hold the investment in subsidiary DOCOMO Communications Laboratories Europe GmbH and thus, the going concern basis continues to be adopted in the preparation of these financial statements.

Investments

Fixed asset investments are stated at cost less amounts written off in respect of any impairment.

1 Accounting policies (continued)

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Improvements on leasehold buildings - life of lease

Tools, furniture, fixture - 4 years

Note book PC - 3 years

Project related fixed assets - Over agency contracted period

Depreciation method, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the company expects to consume an asset's future economic benefits.

Leases

Operating lease rentals are charged to the Profit and Loss Account on a straight line basis over the period of the lease. Assets acquired under finance leases are capitalised and the outstanding future lease obligations are shown in creditors.

Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax assets are recognised to the extent that they are regarded as recoverable. Deferred tax assets are regarded as recoverable to the extent that on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Except where otherwise required by accounting standards, full provision without discounting is made for all timing differences that have arisen but not reversed at the balance sheet date.

Turnover

The Company's turnover is principally derived from costs recharged to the parent company at a mark-up of 10 percent and is recognised when the related services are rendered.

6 Taxation (Continued)

Factors that may affect the current and total tax charge in future periods

The Finance Act 2013 was enacted in July 2013 and introduced a reduction in the headline rate of corporation tax to 21% from 1 April 2014 and to 20% from 1 April 2015. The Summer Budget announced on 8 July 2015 included reductions in the rate of corporation tax from 20% to 19% and 18% effective from 1 April 2017 and 1 April 2020 respectively. These changes have been substantively enacted at the balance sheet date. The Chancellor has announced for the draft Finance Bill 2016 that the rate will be cut further to 17% by April 2020.
