1 Accounting policies

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and on the historical cost accounting rules

These financial statements present information about the Company as an individual undertaking and not about its group.

Investments

Fixed asset investments are stated at cost less amounts written off in respect of any impairment.

Fixed assets and depreciation

Improvements on leasehold buildings	-	life of lease
Tools, furniture, fixture	-	4 years
Note book PC	-	3 years

Foreign currencies

Leases

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

Assets acquired under finance leases are capitalised and the outstanding future lease obligations are shown in creditors.

Notes *(continued)*

1 *Accounting policies (continued)*

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes

Deferred tax assets are recognised to the extent that they are regarded as recoverable. Deferred tax assets are regarded as recoverable to the extent that on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Except where otherwise required by accounting standards, full provision without discontinuing is made for all timing differences that have arisen but not reversed at the balance sheet date.

Turnover

The Company's turnover for the period as derived principally from costs recharged to the parent company at a mark-up.
