1 ACCOUNTING POLICIES

The financial statements have been prepared in accordance with applicable Accounting Standards in the United Kingdom. A summary of the more important accounting policies, which have been consistently applied, is set out below.

The financial statements have been prepared on the going concern basis. The company had net liabilities of £1,059,805 at 30 June 2009 and owed its parent undertaking £17,157,532 at that date. The parent undertaking has confirmed that it will continue to provide financial support to the company for the foreseeable future to enable the company to pay its financial liabilities as they fall due and will not require the £17,157,532 to be repaid for at least twelve months from the date of signing of the financial statements.

Changes in accounting policies:

The accounting policies are the same as the previous years.

Basis of accounting:

The accounts are prepared under the historical cost convention. The financial statements are prepared on a going concern basis as the parent company have confirmed that it will provide financial support to enable the Company to meet its financial obligations as they fall due. The Company's audit fees are recognised by its parent company, Eleco plc.

Tangible fixed assets.

The cost of fixed assets is their purchase cost, together with any incidental costs of acquisition.

Investments

Fixed asset investments are shown at cost, together with any incidental costs of acquisition, less any provision for impairment.

Cash flow statement.

The Company is a wholly owned subsidiary of Eleco plc and the cash flows of the Company are included in the consolidated group cash flow statement of Eleco plc. Consequently the Company is exempt from the requirement to publish a cash flow statement.

Group financial statements:

The financial statements refer only to the company as a single undertaking and are not consolidated. The company is exempt from publishing group financial statements as it is the subsidiary of an undertaking established under the laws of an EC member and is included in the consolidated statements of that undertaking.

Deferred taxation:

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at the date will result in an obligation to pay more tax or a right to pay less tax or to receive more tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold,
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
