Approved by the board on 15 August 2013

And signed on their behalf by:

I M Richards, Director

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1068 of the Companies Act 2006.

#### Notes to the Abbreviated Accounts

For the year ending 31 December 2012

### Accounting policies

#### Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### Turnover

The turnover shown in the profit and loss account is the revenue from the performance of the exchange of transactions from the supply of services during the year, exclusive of value added tax.

#### Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions: Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold. Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

### **Fixed Assets**

All fixed assets are initially recorded at cost.

### **Financial Instruments**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

### Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Equipment 15% Reducing balance method

Fixed Assets

	Tangible Assets	Total
Cost or valuation	£	£
At 01 January 2012	726	726
Additions	705	705
At 31 December 2012	1,431	1,431
Depreciation		
At 01 January 2012	109	109
Charge for year	198	198
At 31 December 2012	307	307
Net Book Value		
At 31 December 2012	1,124	1,124
At 31 December 2011	617	617
