Respective Responsibilities of Directors and Auditors

As described on page 1 the company's directors are responsible for the preparation of financial statements. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

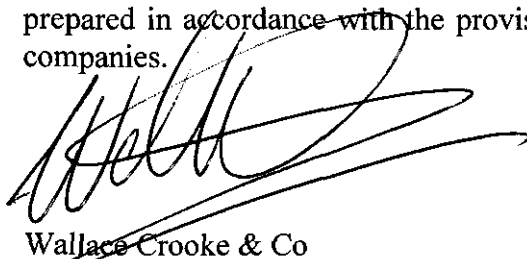

Basis of Opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material mis-statement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at 31 March 2000 and of its profit for the year then ended and have been properly prepared in accordance with the provisions of the Companies Act 1985 applicable to small companies.

1 ACCOUNTING POLICIES

The following Accounting Policies have been used consistently in dealing with items which are considered material in relation to the Company's Accounts:-

(a) Accounting Convention

The Accounts are prepared under the historical cost convention.

(b) Depreciation

Depreciation is calculated so as to write off the cost of Tangible Fixed Assets over their estimated useful lives using the reducing balance method at the following annual rates:

Stocks of Supplies have been valued at cost on a first in first out basis. The bases of valuation have been consistently applied at 31 March 2000 and 31 March 1999. The Directors are of the opinion that the Net Realisable Value of Stocks is not lower than cost.

(d) Lease and Hire Purchase Commitments

Assets obtained under finance leases and hire purchase contracts are capitalised in the balance sheet and depreciated over their useful lives.
