1.1. Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Turnover

Turnover represents the total value of contributions receivable from residents during the year.

Provision is made in full for all taxation deferred in respect of timing differences between the treatment of certain items for accounts and tax purposes, that have originated but not reversed by the balance sheet date. No provision is made for taxation on permanent differences. Deferred tax assets are recognised to the extent that it is more likely than not that they will be recovered.

Deferred tax is not discounted to reflect the present value of future cash flows.

The company meets its day to day working capital requirements through trading cash in flows and support by the directors. On this basis, the directors consider it appropriate to prepare the financial statements on a going concern basis.
