HILLBAIN LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 APRIL 2013

1 Principal accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Consolidation

The company and its subsidiary comprise a small group. The company has therefore taken advantage of the exemption provided by section 399 of the Companies Act 2006 not to prepare group financial statements.

Turnover

Turnover represents the value of rents receivable and premiums payable on lease extensions

Depreciation

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost less estimated residual value, of each asset over its expected useful life, as follows.

Plant and machinery

10% straight line

Investment properties

Tangible fixed assets

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), the company's freehold properties are held for long-term investment and are included in the balance sheet at their open market values. The surpluses or deficits on revaluation of such properties are transferred to the investment property revaluation reserve. Depreciation is not provided in respect of freehold investment properties.

This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the financial statements may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.
