In preparing these abbreviated accounts:

- the directors are of the opinion that the company is entitled to exemption from audit under section 477 of the Companies Act 2006;
- (2) no notice has been deposited under section 476 by a member requiring an audit, in relation to the accounts for the financial year;
- (3) the directors acknowledge their responsibility for:
 - (a) ensuring that the company keeps proper accounting records in accordance with section 386 of the Act, and;
 - (b) preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit for the financial year and which otherwise comply with the requirements of the Act relating to the accounts, so far as applicable to the company.

These abbreviated accounts have been prepared in accordance with the provisions of the small companies regime within Part 15 of the Companies Act 2006.

The notes on pages 4 to 6 form part of these abbreviated accounts.

Notes to the abbreviated accounts

1. Principal accounting policies

The accounts have been prepared in accordance with applicable accounting standards. A summary of the more important policies, which have been applied consistently, is set out below. The accounts have been prepared under the Companies Act 2006 for the first time this year.

Basis of accounting

The accounts have been prepared in accordance with the historical cost convention.

Tangible fixed assets

Fixed assets are stated at their purchase cost, together with any incidental costs of acquisition.

Depreciation is calculated so as to write off the cost of tangible fixed assets, less their estimated residual values over their expected useful economic lives. The principal annual rates and basis used for this purpose are:

%

Property	12 ¹ ,	(Straight line)
Motor vehicles	20	(Reducing balance)
Equipment	20	(Straight line)

Hire purchase

Assets acquired under hire purchase contracts are capitalised based on the purchase price of the assets. Depreciation is provided on the same basis as for owned assets. The interest element of the hire purchase payment is charged to the profit and loss account over the period of the contract.

The capital value of hire purchase assets are included in the balance sheet as a liability, reduced by the capital element of the hire purchase payments.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost is calculated on a first in, first out basis. Where necessary, provision is made for obsolete, slow moving and defective stocks.

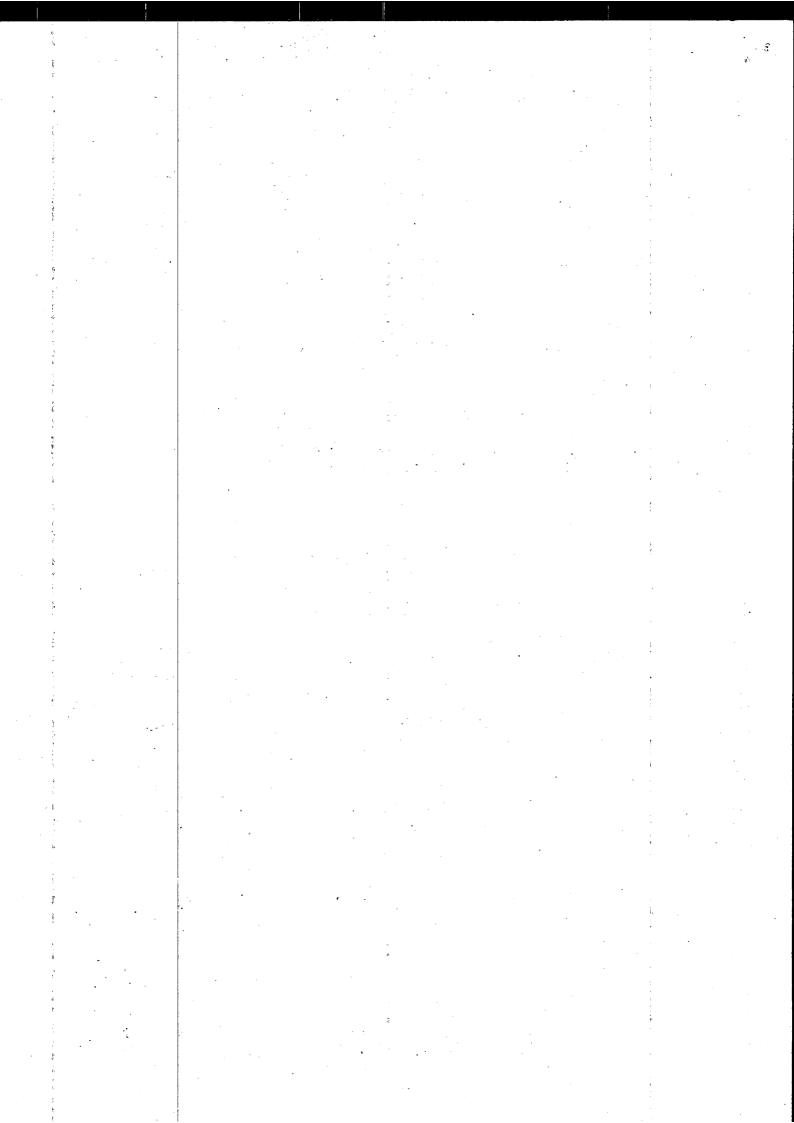

Turnover

Turnover, which excludes value added tax and trade discounts, represents the invoiced value of goods and services supplied.

Taxation

The charge for taxation is based on the profit for the year as adjusted for disallowable items and for timing differences to the extent that they are unlikely to result in an actual tax liability in the foreseeable future. Timing differences arise from the recognition for tax purposes of certain items of income and expenses in a different accounting period from that in which they are recognised in the accounts. The tax effect of timing differences, as reduced by the tax benefit of any accumulated losses, is treated as a deferred tax liability.

Notes to the abbreviated accounts (cont'd)

Goodwill

Goodwill is the difference between the fair value of the consideration given on the acquisition of a business and the aggregate fair value of the separate net assets acquired.

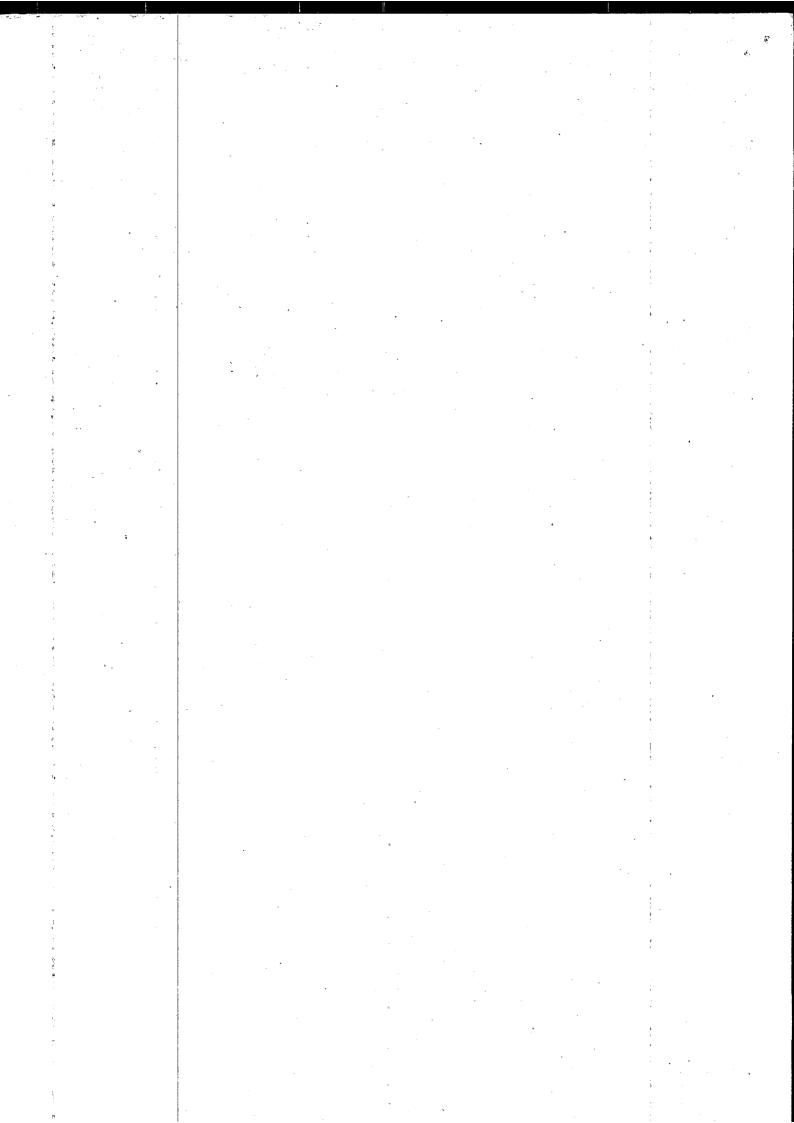

Goodwill is not amortised, as it is considered that its useful life is not limited. The carrying value is reviewed annually by the directors to determine whether there has been any permanent impairment in the value and any such reduction in the value are taken to the profit and loss account.

Goodwill, whether written off directly to reserves or amortised through the profit and loss account, is taken into consideration when that part of the business which caused the initial entry is subsequently sold or closed in determining the profit and loss on the disposal.
