NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 MARCH 2016

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

In light of current economic conditions the director has reviewed cash flow forecasts, sale projections and banking facilities in detail and on an ongoing basis. As a result the director considers that the company is able to continue to meet its debts as they fall due and that it is therefore appropriate to prepare the financial statements on a going concern basis.

Turnover

The turnover shown in the profit and loss account represents the invoiced value of sales of land and property and subcontract building service, exclusive of Value Added Tax. Sales are recognised on completion of contracts.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery	-	25% reducing balance
Motor Vehicles	-	25% reducing balance
Fixtures & Fittings	-	25% reducing balance

Work in progress

Work in progress is valued on the basis of direct costs incurred. Acquisition of sites are recognised on exchange of contract. No element of profit is included in the valuation of work in progress.

Financial instruments

Financial liabilities are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
