NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Related parties transactions

As the company has prepared its financial statements in accordance with the Financial Reporting Standard for Smaller Entities, it has taken advantage of the exemption in FRS 8 from disclosing transactions with members or shareholders of the Hallmark Care Homes Group Holdings Limited group of companies.

Turnover

Turnover from the management of a residential care home is recognised at the fair value of the consideration receivable for the sale of services provided to customers during the year in the normal course of business. Turnover is recognised when services are provided to the customer.

Goodwill

Positive purchased goodwill arising on acquisitions is capitalised, classified as an asset on the Balance Sheet and amortised over its estimated useful life up to a maximum of 20 years. This length of time is presumed to be the maximum useful life of purchased goodwill because it is difficult to make projections beyond this period. Goodwill is reviewed for impairment at the end of the first full financial year following each acquisition and subsequently as and when necessary if circumstances emerge that indicate that the carrying value may not be recoverable.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill - 5% per annum straight line

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Freehold Property	- 2% per annum straight line
Plant & Machinery	- 12.5% per annum straight line
Fixtures & Fittings	- 20% per annum straight line
Equipment	- 20% per annum straight line

1. ACCOUNTING POLICIES *(continued)*

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exception:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
