If a partnership, give the names and addresses of the partners or the name of the partnership and office address.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first people who lived on this land, and continues through the years of exploration, settlement, and the struggle for independence. The story is one of a people who have built a great nation, and who are still building it today.

The first people who lived on this land were the Indians. They were here long before the Europeans came. They lived in small groups, and they were very skilled at hunting and farming. They were also very brave, and they fought many wars with each other.

The Europeans came to this land in the 15th century. They were looking for new places to settle, and they found a land that was full of resources. They brought with them new tools and weapons, and they began to build a new life here.

The Europeans and the Indians lived together for many years. They learned from each other, and they built a new society. But in the 18th century, the Europeans began to push the Indians off their land. They wanted more land for their farms and settlements, and they were not willing to share.

The Indians fought back. They fought many wars with the Europeans, and they won some of them. But in the end, the Europeans won. The Indians were forced to move to small, isolated areas, and they lost their way of life.

The Europeans continued to build their nation. They fought the Revolutionary War, and they won. They became a free country, and they began to grow and expand. They built a great nation, and they are still building it today.

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1601 UV-Visible Spectrophotometer.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28 °C. The cell concentration of the *Agrobacterium* strains was adjusted to 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and incubated for 24 h at 28 °C. The plant tissue was then cultured on the selective medium. The transformation efficiency was calculated as the number of transformants per 100 mg of plant tissue. The data are the mean ± SD of three independent experiments.

the 1990s, the number of people in the world who are illiterate has increased by 100 million. The number of people who are illiterate in the world is now 1 billion. The number of people who are illiterate in the world is now 1 billion.

[illegible]

Yoon, K. S., & Kim, S. (2000). The effects of the Korean financial crisis on the relationship between the firm and the bank. *Journal of Banking and Finance*, 24, 1099-1115.

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthaler and Sponholz (1980).

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015.
