Directors' Responsibilities for the Financial Statements

Company Law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of the affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the Directors are required to -

Select suitable accounting policies and then apply them consistently

Make judgements and estimates that are reasonable and prudent

Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

NOTES TO THE ACCOUNTS

1 ACCOUNTING POLICIES

Basis of preparation

These accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for smaller Entities (effective June 2002)

Turnover

Turnover represents the net amount invoiced to customers

Tangible Fixed Asset Depreciation

Depreciation has been provided at the following in order to write off the assets over their estimated useful lives

Plant & machinery	30% - 50%
-------------------	-----------

Intangible Fixed Assets

These comprise

Domain registrations on the internet, under licence for the company's use for a period of two years, renewable on payment of further licence fees

Intellectual property, which represents a five year licence for the company to use data supplied by Thomson Directories Limited, within its local website portals

Deferred Taxation

Deferred Taxation is recognised on all the timing differences where the transaction or events that give the company an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantially enacted by the balance sheet date.

Leased Assets

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease.

All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight-line basis over the lease term.

2 Operating loss

This is stated after charging	2009	2008
	£	£
Depreciation and amortisation	<u>0</u>	<u>0</u>

3 Taxation

Unrelieved tax losses of approximately £4,870,000 remain available for offset against future taxable trading profit.
