Notes to the Abbreviated Accounts
for the year ended 30th April 2014

1. Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Turnover

Turnover represents revenue recognised in the accounts. Revenue is recognised when the business fulfils its contractual obligations to customers by supplying goods and services and excludes value added tax. Where services are performed gradually over time, revenue is recognised as activity progresses by reference to the value of the work performed.

1.3 Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery, etc.	-	15% - 25% reducing balance and 33.3% straight line
---------------------------	---	--

1.4 Investments

Fixed asset investments are stated at cost less provision for permanent diminution in value.

1.5 Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items using a first in first out basis.

1.6 Deferred taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

1.7 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange prevailing at the accounting date. Transactions in foreign currencies are recorded at the date of the transactions. All differences are taken to the profit and loss account.
