Notes to the financial statements

Year ended 30 September 2020

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 16 Carrwood Hey, Ramsbottom, Bury, BL0 9QT.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements are prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for pension, investment advisory services and domestic cleaning services provided during the year.

Taxation

The taxation expense represents the aggregate amount of current tax recognised in the reporting period. Tax is recognised in the statement of income and retained earnings. Current tax is recognised on taxable profit for the current period. Current tax is measured at the amounts of tax expected to be paid using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Goodwill

Amortisation of goodwill has not been provided for by the company as in the opinion of the directors it has an indefinite useful economic life. The accounting policy departs from the requirements of FRS 102 to amortise goodwill over a finite period. The effect of the departure is that amortisation as required by the requirements of FRS 102 has not been accounted for. If amortisation had been accounted for the charge for the year would have amounted to £750 and the profit reduced accordingly.

Intangible assets

Intangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated amortisation and impairment losses.

Intangible assets acquired as part of a business acquisition are recorded at the fair value at the acquisition date.

Government grants

Government grants are recognised using the accrual model. Under the accrual model, grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to

the entity with no future related costs are recognised in income in the period in which it becomes receivable.

Financial instruments

The company only enters into basic financial instruments that result in the recognition of the financial assets and liabilities such as trade and other debtors and creditors. These are measured at amortised cost and assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of income and retained earnings.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 2 (2019: 2).
