The notes on pages 3 to 4 form part of these financial statements.

Lincolnshire Training Providers Limited
Notes to the Financial Statements
For The Year Ended 30 April 2022

1. Accounting Policies

1.1. Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention and in accordance with the FRS 102 Section 1A Small Entities - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

1.2. Turnover

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover is reduced for estimated customer returns, rebates and other similar allowances.

Sale of goods

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods has transferred to the buyer. This is usually at the point that the customer has signed for the delivery of the goods.

Rendering of services

Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs. Turnover is only recognised to the extent of recoverable expenses when the outcome of a contract cannot be estimated reliably.

1.3. Tangible Fixed Assets and Depreciation

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is provided at rates calculated to write off the cost of the fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant & Machinery	25% reducing balance
-------------------	----------------------

1.4. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred tax liabilities are presented within provisions for liabilities and deferred tax assets within debtors.

1.5. Government Grant

Government grants are recognised in the profit and loss account in an appropriate manner that matches them with the expenditure towards which they are intended to contribute.

Grants for immediate financial support or to cover costs already incurred are recognised immediately in the profit and loss account. Grants towards general activities of the entity over a specific period are recognised in the profit and loss account over that period.

Grants towards fixed assets are recognised over the expected useful lives of the related assets and are treated as deferred income and released to the profit and loss account over the useful life of the asset concerned.

All grants in the profit and loss account are recognised when all conditions for receipt have been complied with.

2. Average Number of Employees

Average number of employees, including directors, during the year was as follows: 1 (2021: 5)
