Notes to the Accounts

Period from 1 August 2021 to 15 June 2022

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 25 Powis Terrace, Powis Terrace, London, W11 1JJ, United Kingdom.

2. Statement of compliance

These accounts have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The accounts have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The accounts are prepared in sterling, which is the functional currency of the entity.

Significant estimation technique adopted

Accruals are estimated by reference to purchase orders raised at the period end and estimates to complete. Payments received on account are estimated by reference to percentage of completion of the film, as noted in "Revenue recognition" below.

Comparatives

The accounts cover the period from 1 August 2021 to 15 June 2022. The comparatives cover the year from 1 August 2020 to 31 July 2021.

The accounting period has been shortened to ensure that the accounting period and tax credit claim is conterminous.

Disclosure exemptions

The entity satisfies the criteria of being a qualifying small entity as defined in FRS 102. As such, advantage has been taken of the following disclosure exemptions available under section 1A of FRS 102: (a) No cash flow statement has been presented for the company. (b) Disclosures in respect of financial instruments have not been presented.

Revenue recognition

Turnover relates to the production of the film entitled "Stopmotion". It represents the value of the work done in the period, including estimates of amounts not invoiced and is stated after trade discounts, other taxes and net of VAT. Revenue from the rendering of services is measured by reference to the stage of completion of the service transaction at the end of the reporting period provided that the outcome can be reliably estimated. When the outcome cannot be reliably estimated, revenue is recognised only to the extent that expenses recognised are recoverable.

Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
