The financial statements have been prepared under the historical cost convention.

Significant judgements and estimates

In preparing these financial statements the director has made the following judgements:

Consider the recoverability of trade debtors and work in progress and the need for impairment provisions. These considerations are undertaken regularly by the director, and especially at the year end date. Factors taken into account include historical experience, current market conditions and knowledge of the sector. Amounts identified as irrecoverable will be provided against in the relevant period.

Consider the depreciation rates on an annual basis to ensure there is sufficient evidence to support these and that the estimates remains reasonable.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.
