1 Accounting policies

a) Going concern

The accounts have been prepared on a going concern basis as the directors have pledged to provide continued financial support to the company.

b) Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

c) Turnover

Turnover represents invoiced sales of goods and services as property developers and consultants, excluding value added tax.

d) Deferred taxation

Deferred tax is provided in respect of any material tax effect of all timing differences that have originated but not reversed at the balance sheet date.

A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a non-discounted basis, at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2 Called-up share capital
