Notes to the Abbreviated Financial Statements

For the Year Ended 31st May 2008

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention modified to include the valuation of property licences with less than ten years to run, and in accordance with the Financial Reporting Standard for Smaller Entities.

Turnover

Turnover represents the gross value of fees, excluding value added tax.

Tangible fixed Assets

Tangible fixed assets are stated in the balance sheet at cost less depreciation except for property licences (see below).

Depreciation has been provided on tangible fixed assets to write off their cost less estimated residual value over their expected useful lives, as follows;

Site plant	Various
Computer equipment	3 years straight line
Equipment	20% reducing balance
Motor Vehicles	25% reducing balance

No capital sums were paid for licences to occupy the properties for which rent is paid. However, these rights of occupancy have typically up to seven years to run with capital values which are usually maintained to the last year of the licence.

Consequently, to show a true and fair view of the company's affairs in the balance sheet, the directors have included the property licences at the directors' valuation at the balance sheet date, as is usual practice in this type of business.

Work in progress

Work-in-progress represents the amount of fees earned but not invoiced at the year end. The value is the total fees excluding value added tax.

Operating leases

Payments made under the terms of operating leases are written off to the profit and loss account in the period in which they occur.
