NOTES TO THE ABBREVIATED ACCOUNTS
for the year ended 31 May 2011

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The company has net current liabilities of £114,780. However the director has undertaken to make funds available to enable the company to meet its liabilities as they fall due and therefore considers it appropriate to prepare the accounts on the going concern basis.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) except that the alternative rules set out in the 1st Schedule to the Companies Act 2006 have been adopted in respect of investment properties. As explained in the fixed assets note, no depreciation is provided in respect of investment properties as it is considered that this policy is necessary in order for the financial statements to show a true and fair view.

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Investment property - not provided

No depreciation is provided for on freehold investment property in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Deferred tax

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset.

Deferred tax assets and liabilities are not discounted.

2. TANGIBLE FIXED ASSETS

	Total £
COST	
At 1 June 2010 and 31 May 2011	121,886
NET BOOK VALUE	
At 31 May 2011	<u>121,886</u>
At 31 May 2010	<u>121,886</u>

(a) The freehold investment properties of the company were purchased during the year ended 31 May 2007. The director considers the purchase price to be the market value at 31 May 2011.

(b) Investment properties are accounted for in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). No depreciation is provided in respect of such properties. Although the Companies Act 2006 would normally require the systematic annual depreciation of fixed assets it is believed that this policy of not providing depreciation is necessary in order for the financial statements to give a true and fair view, since the current value of investment properties and changes in that current value are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been shown cannot be separately identified or quantified.
