## **Autoflow Limited**

### **Chartered accountants report to the board of directors on the preparation of the unaudited statutory financial statements of Autoflow Limited**

**Year ended 31 December 2022**

In order to assist you to fulfil your duties under the Companies Act 2006, we have prepared for your approval the financial statements of Autoflow Limited for the year ended 31 December 2022 as set out on pages 3 to 11 from the company's accounting records and from information and explanations you have given us.

As a practising member firm of the Institute of Chartered Accountants in England and Wales (ICAEW), we are subject to its ethical and other professional requirements which are detailed at <http://www.icaew.com/en/members/regulations-standards-and-guidance>.

This report is made solely to the board of directors of Autoflow Limited, as a body, in accordance with the terms of our engagement letter. Our work has been undertaken solely to prepare for your approval the financial statements of Autoflow Limited and state those matters that we have agreed to state to the board of directors of Autoflow Limited as a body, in this report in accordance with ICAEW Technical Release 07/16 AAF. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Autoflow Limited and its board of directors as a body for our work or for this report.

It is your duty to ensure that Autoflow Limited has kept adequate accounting records and to prepare statutory financial statements that give a true and fair view of the assets, liabilities, financial position and profit of Autoflow Limited. You consider that Autoflow Limited is exempt from the statutory audit requirement for the year.

We have not been instructed to carry out an audit or a review of the financial statements of Autoflow Limited. For this reason, we have not verified the accuracy or completeness of the accounting records or information and explanations you have given to us and we do not, therefore, express any opinion on the statutory financial statements.

For the year ending 31 December 2022 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

**Directors responsibilities:**

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies' regime and in accordance with Section 1A of FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

In accordance with section 444 of the Companies Act 2006, the statement of income and retained earnings has not been delivered.

These financial statements were approved by the board of directors and authorised for issue on 27 September 2023 , and are signed on behalf of the board by:

**Mr Graham Eyles**

**Director**

**Company registration number: 04061932**

## **Autoflow Limited**

### **Notes to the financial statements**

#### **Year ended 31 December 2022**

##### **1. General information**

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Wellington House, The Embankment, Wellingborough, NN8 1LD.

The principal activity of the company is that of writing and modification of computer programs and the sale of computer software and hardware.

##### **2. Statement of compliance**

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006'.

##### **3. Accounting policies**

###### **Basis of preparation**

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

###### **Going concern**

The directors believe that the company is experiencing good levels of sales growth and profitability, and that it is well placed to manage its business risks successfully. Accordingly, they have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the financial statements.

###### **Turnover**

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax. Revenue from perpetual software licences is recognised when the significant risks and rewards of ownership relating to the licence have been transferred and it is probable that the economic benefits associated with the transaction will flow to the company. This is when the software is installed or the licence is renewed. In respect of the provision of ongoing support services included in the annual licence fee, turnover is recognised in the profit and loss account on a straight line basis over the term of the agreement at the estimated cost per user site. When products and services are bundled together to be sold to a customer, it is necessary to apply the recognition criteria to the separately identifiable components of a single transaction in order to reflect the substance of the transaction.

## **Taxation**

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

## **Operating leases**

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

## **Tangible assets**

tangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated depreciation and impairment losses.

## **Depreciation**

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Short leasehold property	- Over life of the lease
Fittings fixtures and equipment	- 15% Straight line
Motor vehicles	- 25% Straight line
Computer equipment	- 33% Straight line

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

## **Impairment**

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

## **Stocks**

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

## **Provisions**

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event; it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense. Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised in finance costs in profit or loss in the period it arises.

## **Financial instruments**

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost. Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

## **Defined contribution plans**

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided.

## **Current asset investments**

Current asset investments are initially recorded at cost. Current asset investments are revalued at their fair value at each reporting date and any changes in fair value are recognised in profit or loss.

## **4. Employee numbers**

The average number of persons employed by the company during the year amounted to 44 (2021: 39 ).

## 5. Tax on profit

### Major components of tax expense

<b>Issued, called up and fully paid</b>				

	2022		2021	
	No	£	No	£
Ordinary shares of £ 1.00 each	100	100	100	100
	<hr/>	<hr/>	<hr/>	<hr/>

## 14. Related party transactions

The company has provided security to the bank of a related party by means of a fixed and floating charge over all assets of the company. The company is a related party by virtue of the significant influence that it has over Autoflow Limited 's financial and operating policies. The company has also provided security in the form of a fixed and floating charge over its intellectual property in favour of the former shareholders. Other debtors includes an amount of £2,775,533 (2021 : £2,490,533) due from its parent undertaking.

## **15. Controlling party**

The company is under the control of Madison Enterprises Limited due to it holding 100% of the issued share capital.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
