## 5. Going concern

At 30 April 2012 the company had a deficiency of assets amounting to £4,550 (2011 £14,380), after taking into consideration loans from long term creditors totalling £24,896 (2011 £29,146). The company is reliant upon the financial support of its long term creditors who have indicated that this will be continued for at least a further twelve months from the date of approval of these accounts. Should the long term creditors withdraw their support, adjustments would have to be made to reduce the value of assets to their recoverable amount, to provide for any further liabilities which might arise and to reclassify fixed assets as current assets.
