**Millennium Vehicle & Asset Finance Limited**  
**Notes to the Abbreviated Accounts**  
**for the year ended 31 May 2009**

**1 Accounting policies**

*Basis of preparation*

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

*Turnover*

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

*Depreciation*

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives

|                     |                   |
|---------------------|-------------------|
| Plant and machinery | 20% straight line |
| Motor vehicles      | 25% straight line |

*Stocks*

Stock is valued at the lower of cost and net realisable value

*Deferred taxation*

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

*Leasing and hire purchase commitments*

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.
