## **Notes to the Unaudited Abbreviated Accounts for the year ended 30 September 2014**

### **1 Accounting policies**

#### ***Basis of preparation***

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### ***Turnover***

Turnover represents the value, net of value added tax and discounts, of goods and services provided to customers.

#### ***Intangible fixed assets and amortisation***

Intangible assets are stated at cost less amortisation. Amortisation is provided at rates calculated to write off the cost of goodwill over its expected useful life of 20 years and the shop lease over its 6 year term on a straight line basis.

#### ***Tangible fixed assets and depreciation***

Tangible fixed assets are stated at cost less depreciation. Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives:

Furniture, fittings and equipment	15% pa on reducing basis
Furniture, fittings and equipment on finance leases	Straight line over term of lease
New Shop Development	Straight line over term of lease

#### ***Leasing and hire purchase contracts***

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Assets acquired under the hire purchase contracts are depreciated over their useful lives. Finance leases are those where substantially all the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future years. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each year.

#### ***Stocks***

Stock is valued at the lower of cost and net realisable value.

#### ***Deferred taxation***

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

#### ***Pensions***

The company operates a defined contribution pension scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.
