Notes to the Abbreviated Accounts

For the year ending 31 December 2011

Accounting policies

Basis of preparing the financial statements

The financial statements have been prepared on a going concern basis, which assumes that the Company will continue to trade in operational existence for the foreseeable future. At 31 December 2011 the Company had net current assets of £3 (2010: £18) and a net assets position of £191 (2010 £21). Although the Company is not technically insolvent, the Directors have considered the position of the Company with respect to it's obligations to ensure the business can continue in operational existence for the foreseeable future, and confirm their approval to adopt the going concern basis for preparing the accounts. The assumption the Directors have made in reaching this conclusion may be summarised as follows: - the Directors are of the opinion that there is no reason to believe that the continued support of the Company's bankers will not be forthcoming as the Company has always operated within the agreed facilities.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services, excluding value added tax deducted under the Flat Rate Scheme.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.
