NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30th APRIL 2012

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover is the total amount receivable for goods supplied and services provided, excluding VAT Profit is recognised on long-term contracts, if the final outcome can be assessed with reasonable certainty, by including in the profit and loss account turnover and related costs as contract activity progresses Turnover is calculated by reference to the value of work performed to date as a proportion of the total contract value

Fixed assets

All fixed assets are initially recorded at cost

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery	-	25% reducing balance or 5 years straight line
Fixtures & Fittings	-	Straight line over 2 years
Motor Vehicles	-	25% reducing balance or straight line over 5 years

Work in progress

Work in progress is valued on the basis of direct costs plus attributable overheads based on normal level of activity Provision is made for any foreseeable losses where appropriate No element of profit is included in the valuation of work in progress

Long term contracts

Amounts recoverable on contracts, which are included in debtors, are stated at the net sales value of the work done less amounts received as progress payments on account Costs associated with long term contracts are included in work in progress to the extent that they cannot be matched with contract work accounted for as turnover Full provision is made for all losses on all contracts in the year in which the loss is foreseen

Leased assets and obligations

Where assets are financed by leasing agreements that give rights approximating to ownership ('finance lease'), the assets are treated as if they had been purchased outright The amount capitalised is the present value of the minimum lease payments payable during the lease term The corresponding leasing commitments are shown as obligations to the lessor

Lease payments are treated as consisting of capital and interest elements, and the interest is charged to the profit and loss account in proportion to the remaining balance outstanding

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30th APRIL 2012

1. ACCOUNTING POLICIES *(continued)*

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

The pension costs charged in the financial statements represent the contributions payable by the company during the year.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
